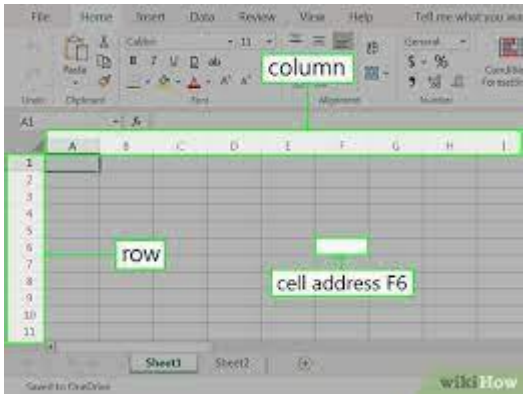
Knowledge organiser – Y2 DATA HANDLING

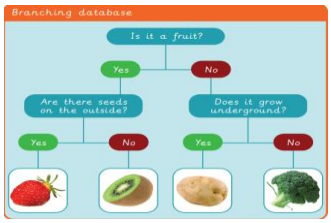
My Key Learning



What do I already know?

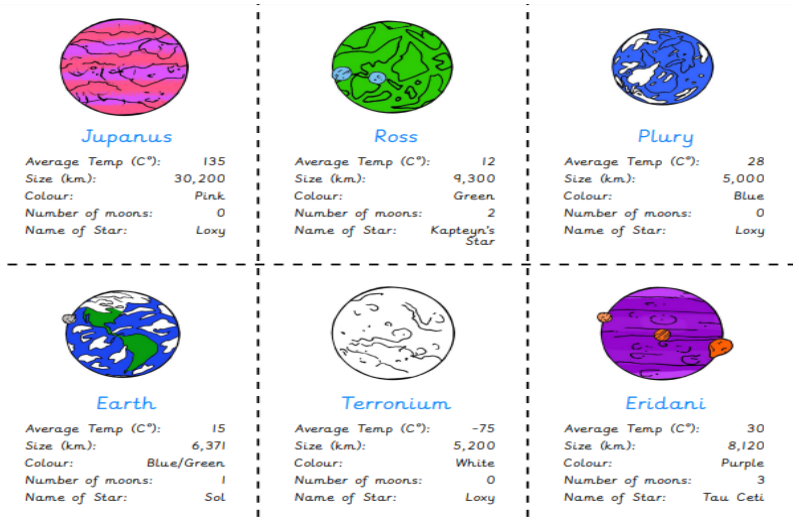
That charts and pictograms can be created using a computer.

I know a branching database is a way of classifying a group of objects.



Key Vocabulary	Definition
Interpret	Explain the meaning of something to someone else or to yourself.
Data	Information used for a specific purpose.
Spreadsheet	An electronic document that let you store data in rows and columns.
Row	A horizontal line of cells.
Column	A vertical line of cells.
Cell	A rectangular area where a column meets a row.

Data is information used for a specific purpose, it can come in many forms.



You can enter simple data into a spreadsheet. Spreadsheets are useful to store data and also help when you want to find information quickly.
