

# Y6 RE Knowledge organiser – UNIT 1

## UNIT U2. 2 Creation and Science: conflicting or complementary? **My Key Learning**

### What do I already know?

Genesis is the first book of the Bible.

Christians believe that God created the World.

#### CREATION

The universe and human life are God's good creation. Humans are made in the image of God.

FALL

Some people who are not Christians or who do not have a faith do not believe God created the World.

### The story of creation:

The Bible tells the story of creation in Genesis 1:1 – 2:3.

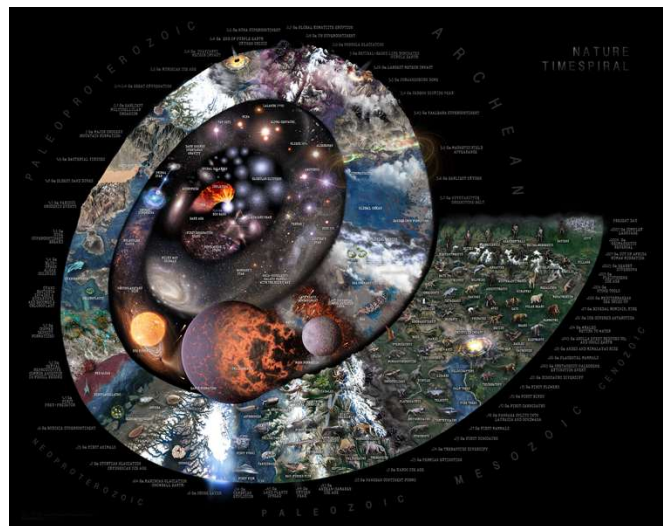

The Bible describes the Christian belief of God as Creator.

The creation story is at least 2,500 years old.

### Cosmology and Evolution:

Not everyone believes that the World was created by God.

Cosmologists believe that the universe began differently.

Some scientists are Christians. They want to find out more about the world and how it works.

Jennifer Wiseman is an astrophysicist and Christian. She studies the universe.

Many Christians find that science and faith are closely linked and help them to do their work.

“ Since God is responsible for all nature, there is nothing to fear in studying the details. In fact God calls us to study his handiwork as a means to learning of God's character and glory. The time has come to raise up Praise, based on knowledge and wonder, as a primary response of our congregations to scientific discovery.   
 Jennifer Wiseman   
 Astronomer & Astrophysicist

WONDER: Science's Gift to the Church | Nov. 18th, 2021 | difw.org/events

Key Vocabulary	Definition
agnostic	cannot say if God exists or not
conflicting	disagreeing with something or someone
complementary	works alongside something else
cosmology	the beginning of the universe
evolution	the development of living beings
genre	text types
literal	taking the meaning of something
universe	all existing things including the earth, creatures and space
